10:00 a.m. Panel I: Pension Reform in California: Implications for Community Colleges

ACCCA has been actively monitoring all of the proposals for reforming the public pension system in California, including a growing number of potential ballot initiatives, and we've assembled a panel of insiders to discuss in Town Hall style what the significant implications will be for community college administrators under each possible scenario. Participate in this session and get your pension questions answered and your opinions heard.

10:45 a.m. Refreshment Break—Solarium/Atrium

Light refreshments available during the brief session break.

11:00 a.m. Panel II: Student Success Task Force Recommendations & Next Steps

As we've all closely followed the work of the SSTF and have been left to wonder what in the world those recommendations will mean should any of them find their way into regulation or law, a review is in order of what exactly the next steps will be and what the implications are for your college. Just as the Board of Governor's passes judgment on the final recommendations and they presumably head to the Legislature for their consideration, come and hear from the Task Force consultant, Amy Supinger and some of the key players in that process about what's ahead for colleges and what the potential for real change will be.
